Latest Road Angel is the Plus, which has no wires

Simon McBride

HACKED off with cabin cable clutter? Then lose at least one of those wires by fitting the new Road Angel Plus. It's the latest Global Positioning Satellite-based safety camera detector from Blackspot Interactive and, unusually, it requires no leads, as it has a built-in battery.

The cell pack lasts for more than eight hours on a single charge, and it can be revived from your PC or in the car. Road Angel displays your speed, as well as the limit when near hazards and traps, and alerts drivers of their presence using visual and audible warnings.

It also informs you of accident blackspots and primary-school zones. The Road Angel database is constantly updated, and the latest revisions can be downloaded to the £349 Plus via your PC and the Internet. For more information, go to www.blackspot.com or call 01327 855586.

fit it

Black beauty wheels

HERE are some trim new rims! Fresh from Wolftrace, the Toxin Black alloy is sure to make your car stand out with its sinister, dark finish, multispoke design and the manufacturer's signature wolf's-head centre cap.

As well as being available for 17 and 18-inch wheels, four and five-stud fittings are offered on the alloys, which cost £119.95 each. For further information, log on to www.wolftrace.co.uk or contact 01621 843771.

They're a bit of all wipe

CLEAN up big time in the garage with these wipes from Sycamore. Its Automotive Big Wipes kit contains cloth for sprucing up interiors, exteriors and glass. The maker says that between the three, the products remove, dirt, oil, tar, bird lime and tree sap, plus adhesives, silicone and sealants.

The 180x230mm disposable cloths are made from a blend of polypropylene and viscose, which is impregnated with cleaners and solvents. A total of 120 wipes are included in the set of three tubs, which costs £9.99. To find out more, log on to www.bigwipes.com or call 01628 894374.

Your chance to... Win performance brake discs

STOP right there! These performance brake discs from Rossini can bring your car to a halt up to 40 per cent quicker than standard items. And we've got two sets of front pads and discs, each worth around £100, to give away.

The maker says multi-drilling the disc cools it quickly, while grooves on the surface reduce brake-pad glaze and remove dust. Rossini's range fits around 90 per cent of UK vehicles, including performance, 4x4 and classic cars. For more information, contact www.carparts-direct.co.uk or 01332 290833.

For your chance to win, send your name, address, phone number and E-mail address plus the make, model and year of your car on a postcard to: Auto Express/Rossini, PO Box 2430, London W1A 2TJ by 30 May 2006.

Please tell us your year of birth and if you do not wish to receive details of further special offers from Dennis Publishing, Normal competition rules apply.
