

BIG WIPES CLEAN UP - & SAVE YOU CASH!

BEING A painter and decorator is no picnic. Working in a very messy trade, it can be tough keeping everything clean and muck-free.

We've all been there... a simple job can turn in to a very messy mistake. Rogue trickles of paint or splatters on a carpet or smart wooden floor can mean a right headache – not to mention a tidy pay-out of your insurance excess to put it right. Those not insured will be in for even more of a bumpy ride and an empty wallet.

And it's not just about keeping your work place tidy either. With more painters and decorators now ditching their holey t-shirts and dirty jeans and investing in professional and expensive work-wear, many of us are no longer using our pricey tops and trousers to wipe muck and grime off our hands and need something else to do the job instead.

How about spending less than a tenner to avoid paying over hundreds of pounds in costs?

In a busy, competitive trade, time is definitely money so make sure you don't break a sweat – break out your Big Wipes instead!

With their 'one wipe shifts the lot' formula they're the no fuss, no mess solution to shifting muck at work and make light work of anything caked onto you or your stuff!

Big Wipes cut through anything from adhesives, stains and stubborn oil-based paints which means you can get avoid any grafting and insurance claims by cleaning up messy disasters in a flash. Big Wipes can also help you reduce your snagging costs at the end of a big job by keeping everything muck-free as you go along. Leaving your work place clean and tidy every day is sure to be a winner with your customer.

With a wide range of different Big Wipes, there's a type of wipe for everything. The £10 insurance policy that could save you hundreds, make sure you've got a tub on every job!
