BOBCAT EVO GENERATION ROTARY TELEHANDLERS

Bobcat has launched the new EVO generation of Stage IIIB/Tier 4 interim rotary telescopic handlers. The new EVO range comprises four models – the TR38160, TR50190, TR50210 and TR40250 rotary telehandlers, providing maximum lifting heights of 15.7, 18.7, 20.5 and 24.1 m, respectively.

The EVO units have been designed to be easy-to-use machines, combining more comfortable and safer operation with the latest developments in the field and a wide range of new features, offering higher performance and increased productivity.

All four models have a new higher-mounted cab that offers better all-round visibility.

CHICAGO PNEUMATIC RED HAWK

Construction equipment manufacturer Chicago Pneumatic has unveiled its Red Hawk range of motor drills and breakers. With three options available, the new range is suitable for roads, railways and drilling applications, providing users with a range of rugged and reliable breakers.

The Red Hawk Road is the most powerful breaker in the new range offering high impact energy and weighing only 22kg. Ideal for concrete and asphalt breaking and cutting, enough impact energy is delivered to handle silica-rich rocks and reinforced concrete. An additional tamping shank allows users to repair potholes and surface damage, making the Red Hawk Road ideal for infrastructure applications.

BIG WIPES 4X4 POCKET PACKS

Big Wipes has now released its 4x4 formula in new compact sachet packs of 40 wipes.

The sachet pack dimensions have been designed and specified to fit perfectly into the tool pouches of most leading brands of workwear, van gloveboxes and toolbags. This makes them ideal for jobs in confined areas such as loft spaces, under sinks – in fact anywhere there is filth that needs to be blitzed.

Big Wipes 4x4 have been designed to instantly shift all modern construction sealants, PU foam, adhesives, paints, coatings and grime.
