## BOSCH CHARGE ANXIETY KIT

Loss of productivity through flat power tool batteries could be a thing of the past, thanks to new thinking from Bosch Professional Power Tools, says the manufacturer. With its 'Wireless Charging System', Bosch claims to have become the first supplier in the world to harness the advantages of inductive energy transfer to keep cordless tools power-ready. Aimed at professionals operating in fixed locations, the idea is that, whenever the tool is not being used, it should be placed on the charging unit in the user's work station. Tools can be left on the charger indefinitely or placed there for just a few minutes at a time between jobs.

## DEWALT FIXINGS RANGE

With a new range of anchor systems and direct fasteners, DeWalt now offers heating and plumbing contractors a convenient one-stop-shop for fixings which are said to deliver superior performance in the most demanding conditions. The comprehensive range provides a fast, reliable fixing solution for every application, from high load mechanical anchors for mounting commercial heating plant to masonry walls through to light and medium duty fixings for installing domestic radiators, sanitaryware and bathroom fittings. Engineered to be easy to install and save time and labour on site, the new anchors and fastening systems are available in a range of finishes from zinc to stainless steel and in a vast array of sizes.

## SYLMASTA SYLWRAP PIPE REPAIR BANDAGE

According to the manufacturer, SylWrap Pipe Repair Bandage fixes leaking pipes and tanks quickly and cost-effectively. The resin-impregnated wrap is water activated and hardens in minutes, to create a long-lasting composite repair.

SylWrap is suitable for all pipes, including square downpipes, soil pipes and supply

pipes. It can repair long splits and cracks in cast iron, copper, plastic, clay and all other pipe materials, from 15 to 300mm diameter. The product is WRAS approved and can be used to stop pressurised leaks when flow cannot be isolated.

## HULTAFORS CLAMPS

Professional craftsmen know the difference it makes when they're working with top quality tools. This, says Hultafors, is especially true for clamps, which often have to be put into place quickly to hold, support or stabilise whatever you're working with. Clamps from Hultafors are easy to use, durable and deliver a reliable clamping force quickly and efficiently. They're made from sturdy glass-reinforced nylon and have a die-cast steel rail that enables them to withstand tough conditions and maintain a consistent clamping force over a long period of time.

## KAMCO CLEARFLOW POWER FLUSHING PUMP

Every Kamco Clearflow power flushing pump comes with a complete starter kit, with seven hoses and a selection of Kamco chemicals. Once a power flush has been carried out, the hose set – invariably still containing some water – has to be packed away in the van before completion of the job. Recognising that a van soaked with water is not ideal, Kamco now supplies every power flushing pump with a neat waterproof hose carry crate in which to store the hoses, with extra space for test equipment and other accessories. The revised starter kit now contains the new Concentrated packs of Hyper-Flush neutral pH flushing chemical, and SystemSafe-DM, Buildcert approved corrosion inhibitor, as well as packs of the powerful 'one-shot' Power Flush FX2 flushing chemical.

## BIG WIPES SACHETS

Tradespeople can now take the power of Big Wipes wherever they go, because, for the first time, the industrial strength wipe specialist has harnessed its 4x4 formula in new compact sachet packs of 40 wipes. Thanks to these conveniently sized sachet packs, you can now keep the Big Wipes 4x4 'one wipe and it's gone' cleansing power even closer to hand than ever before. If you haven't got space to carry a tub, no worries, says Big Wipes – the sachet pack dimensions have been designed and specified to fit perfectly into the tool pouches of most leading brands of workwear, van gloveboxes and toolbags. This makes them suitable for jobs in confined areas such as loft spaces and under sinks.
