

HEALTH & SAFETY

PRODUCT ROUND-UP

WIPES

The new Quad Fabric wipes from **Big Wipes** have increased strength and greater absorbency than ever before, which makes them tougher in use and able to soak up extra grime, according to the company. The enhanced scrubbing power of the abrasive surface drives the powerful Big Wipes 4x4 formula deep into

the dirt to speed up cleaning. The abrasive wipes are kind to your hands and the environment: no chemicals or preservatives have been added and the fabric is made from pure polymers, which are 100 per cent recyclable.

SAFETY SHOE

The trainer-style safety shoe, the HYDRA GTX, from **Hultafors'** Solid Gear brand is a technical safety shoe that integrates modern design with quality materials for water protection, durability and a sporty look. Waterproof and breathable Gore-Tex lining keeps your feet dry and comfortable, while the Vibram outsole and Cordura ripstop fabric offer protection and ruggedness. The BOA Closure System distributes the pressure of the fastened shoe evenly across your feet to ensure comfort.

ANTI-VIBRATION SYSTEM

Curotec's Curo is a hand arm and whole body vibration management system designed to calculate operators' daily exposure to vibration in real time. The small device is installed onto power tools via a screwed on holster and lights up red once the user's 24 hour vibration limit has been reached.

DUST REMOVAL SYSTEMS

A more comfortable, safe and productive working environment – that's what **Hilti** is promising with the launch of its upgraded VC 20-

UM and VC 40-UM vacuum cleaners. Both products have been engineered to maximise suction in both wet and dry conditions, while ergonomically designed and equipped with larger wheels for improved handling across the toughest worksites. The VC 20-UM has a dust capacity of 23kg while the VC 40-UM a larger 40kg. They have an extended range of filters for standard, performance and dry applications, optimising the dust removal for the task in hand.

“ My goal was to make my business totally professional ”

Job done!

Charles O'Kell
UK ProBuild Ltd

“Because of rising material costs, we wanted to find a way to make our quotes more precise. We also wanted to improve our image. After investing in a brand overhaul, we wanted to complete the package with professional quotes and contracts.

“We bought the whole suite of software and the paperwork it produces is really impressive. I trust its accuracy, which means others in the business can help – great when it comes to estimating! It's a weight off my mind and my workload.

“Now we're making money, not just paying wages – I'm even having to turn away work!”
