

TOOLS & EQUIPMENT PRODUCTS

Professional Electrician takes a closer look at some of the latest tools to hit the market.

» Irwin Tools

VDE Insulated Screwdrivers

The new range of Pro Comfort Screwdrivers feature a unique distinctive handle designed especially for an enhanced ergonomic grip, giving added comfort, performance and efficiency. They are available in a core range, covering the most popular tip types and sizes, including Phillips, Slotted, Pozidriv, Torx and Parallel heads. Available to purchase individually or as part of 10-piece, nine-piece and six-piece set.

« Big Wipes Hand Cream

Dry skin and cracked, painful hands are a common ailment among the trade, but Big Wipes has come to the rescue with the launch of its new, specially formulated Hand Cream.

Big Wipes Hand Cream, with its powerful combination of urea and alpha

hydroxyl acids (AHAs), is a high performance treatment cream that rapidly relieves dry and rough skin, helps strengthen the skin's barrier function and improves its ability to absorb and hold moisture. It is non-greasy and alcohol and fragrance free and is recommended by dermatologists to increase moisture concentration and improve skin texture, appearance and function.

» Socket & See VIP PRO

Designed to easily fit in your hand, the Socket & See VIP PRO is suitable for use with gauntlets and approved PPE equipment. With its super bright, colour coded LEDs giving a clear indication of voltage, even when working in dim or dark environments, the two banks of LEDs operate independently meaning less chance of a fault (which would cause incorrect indication).

Flexible, dual insulated cable, plus spring-loaded shrouded tips offer maximum protection, making the tester compliant to current GS38 guidelines.

» Hitachi Power Tools

C9U3 Circular Saw

With external brush caps and a unique angle setting system to ensure the accuracy of 90° cuts, the Hitachi C9U3 circular saw is both easy to use and extremely precise.

The forefront of any Hitachi Power Tools' design and the soft grip handles make the C9U3 circular saw comfortable to work with and a blower moves dust and debris away to ensure the cut line is always visible. The saw also comes with an adjustable metal cut line guide, spindle lock for easy blade replacement plus a dust extraction adapter, wrench and carrying case.

« Fluke

FC Leakage Current Clamps

Leakage current can cause unnecessary downtime and intermittent RCD tripping of circuits, so quantifying it is an important part of a preventive maintenance program. The new Fluke 368 FC and 369 FC Leakage Current Clamps, part of the Fluke Connect system of wireless test tools, help industrial electricians and maintenance technicians identify, document, record, and compare leakage current readings to help prevent problems before they happen, without shutting down critical equipment.
